Notes on Section 9 Agreements

Students in the following categories are required to have Section 9 Agreements:

1. All students who wish to be enrolled in a special school or a specified satellite class of a special school or have a regional health school as their base school.
2. Students under 5 years or over 14 years of age whose exceptional needs mean a primary or special school is their most appropriate education setting.
3. Students between the ages of 19 and the end of the school year in which they turn 21, whose exceptional needs mean a secondary school is their most appropriate education setting.

If there is a student requiring a Section 9 Agreement for special education in one of these settings, and their enrolment is supported by the Ministry of Education, Special Education District Office, this form should be completed and the original copy returned to the Ministry of Education, Special Education Regional Office nearest you for signing before enrolment is complete.

Resourcing for students is now being provided in a variety of ways. In summary:

- For all students verified for the Ongoing and Reviewable Resourcing Schemes and enrolled in mainstream schools, the school receives operational funding and additional staffing. After consultation, resourcing is provided to verified students by the fundholder for therapy, paraprofessional and specialist support. However, Section 9 requires all enrolments in special schools to be supported by Section 9 Agreements whether these students are verified for the ORRS or not.
- All schools have access to locally based Resource Teachers Learning and Behaviour (RTLb) and Cluster Learning Support Funds.
- All boards receive a Special Education Grant as discretionary resourcing for students with moderate needs such as learning and behaviour difficulties, and may apply for assistance through Enhanced Programme Funding.
- There is assistance for students with moderate physical and sensory impairments.
- There is assistance for students with severe behaviour difficulties through Ministry of Education, Special Education district offices.
- There is speech-language support for students with communication difficulties through Ministry of Education, Special Education district offices.
- There is assistance for students with significant learning needs through locally based Supplementary Learning Support teachers.
